

What is Brainfuse?

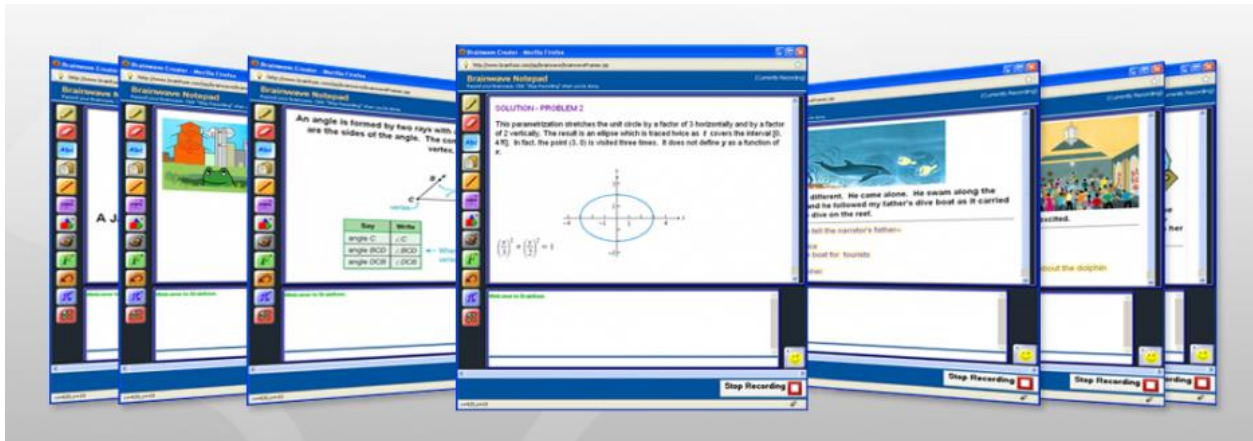

Brainfuse is our online tutoring provider. Brainfuse is available **FREE** 24 hours a day to all **Clarendon College** students. Students and Brainfuse tutors communicate in real-time through an easy-to-use online classroom. Spanish-speaking tutors are also available.

What subjects are offered?

Brainfuse provides live tutoring in the following subjects:

- | | |
|-----------|--|
| Business: | Economics and Finance |
| English: | Reading Comprehension and College Writing |
| Science: | A&P, Biology, Chemistry, and Physics |
| Math: | Pre-Algebra, Algebra, Pre-Calculus, Calculus, Geometry, Trigonometry, and Statistics |

Brainfuse also offers tutoring in certain computer applications such as **Word**, **Excel**, and **Power Point**.

Who are the tutors?

Brainfuse tutors are certified teachers and other experienced educators. All instructors possess 4-year college degrees and undergo a rigorous certification process, including background and reference checks, multiple interviews, skills testing, and extensive training.

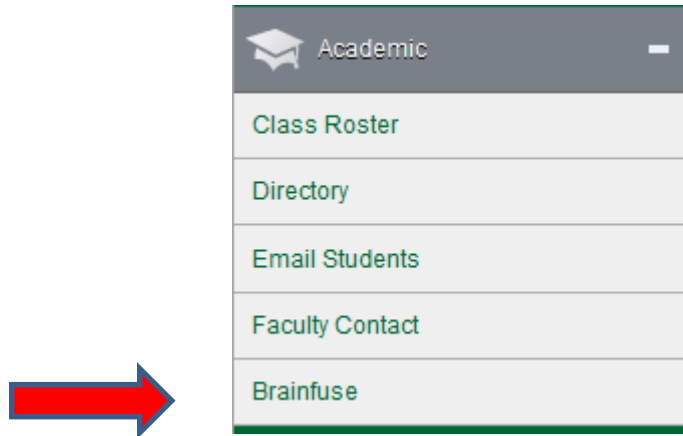

Is Brainfuse effective?

Independent studies confirm that Brainfuse significantly boosts test scores and improves classroom performance.

How do I access Brainfuse?

Brainfuse can be accessed through your student portal.

The Brainfuse navigation button is located at the bottom of the side menu panel.

The Brainfuse Login screen will appear.

Click on the Login button.

LEAP
College Skills Program

Under the Study tab we have access to **Flashbulb**, **Test Center**, and **GRE**.

>> STUDY

Powerful self-assessment and online learning tools featuring Flashbulb™.

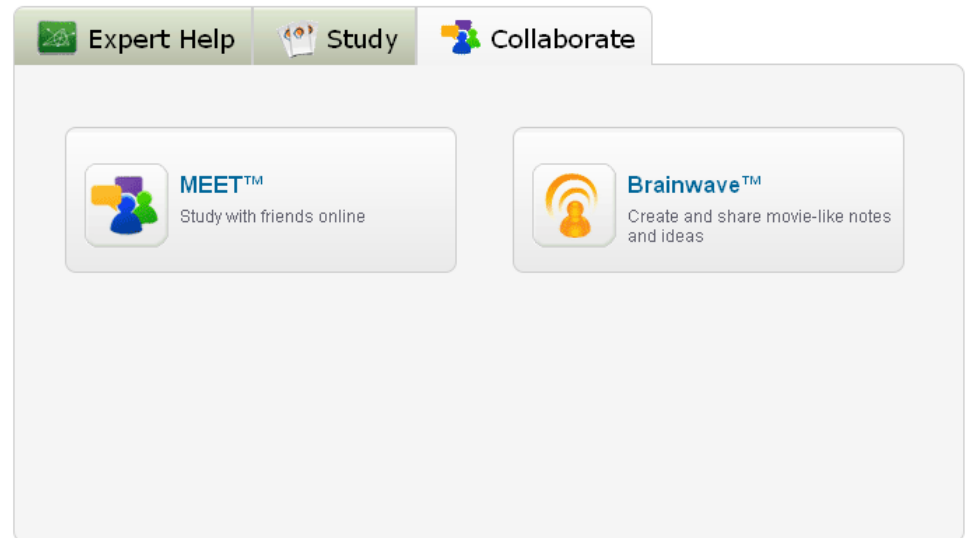

- **Flashbulb:** Create and share interactive learning games/flashcards.
- **GRE:** Get the insider's edge with personalized, on-demand GRE prep.
- **Test Center:** Select a basic skills quiz developed by Brainfuse.

Under the Collaborate tab we have access to **MEET** and **Brainwave**.

>> COLLABORATE

*Form study groups, hold virtual office hours, work on class projects, and share knowledge with peers and instructors using **Meet™** and **Brainwave™**.*

- **Meet™**: Schedule a live study group session with peers and teachers. Participants receive the invite in their email inbox and simply click on the **Meet™** link to join the organizer. Participants need not be Brainfuse users.
- **Brainwave™**: Record movie-like whiteboard sessions for class projects, or any other concepts that involve motion or sequencing.

Live Help is our first option under the Expert Help tab.

After you select **Live Help**, you will be given the option to select the course and the area you need help in.

You may also select to have a Spanish speaking tutor.

A screenshot of the Live Help interface. At the top is a blue header with the text "Live Help" in white. Below the header is a warning message in orange text: "Brainfuse services will be unavailable for Veteran's Day on Monday, November 11, 2013. We will resume normal operations on Tuesday, November 12, 2013." The main content area is divided into two columns. The left column contains a green icon with a white network diagram, followed by the text "Welcome, JamesGFaculty" and "You are just moments away from connecting with a live instructor." The right column contains the heading "Get Live Help" in blue, followed by two dropdown menus: the first is set to "Math" and the second is set to "College Algebra". Below the dropdowns is a checkbox labeled "Por favor marque aquí si prefiere tutoría en español". At the bottom of the right column is a blue button with the text "Get Live Help" in white. Red arrows point from the text on the left to the icon, the welcome message, and the "Get Live Help" button.

When you are done making your selections, click on **Get Live Help**.

This is what the whiteboard in the tutoring session looks like. At the top is the work area.

The chat box where you communicate with the tutor is at the bottom.

The side menu bar on the left is where you will find special formatting tools.

The screenshot displays a tutoring session interface. At the top, there is a toolbar with icons for drawing and editing. Below this is a large whiteboard area containing a financial statement table for Company B. The table is as follows:

Financial Statement Information	Company B
December 31, 2012	
Assets.....	\$10,821
Liabilities.....	\$4,780
During Year 2012	
Owner Investments.....	\$2,000
Net Income.....	\$750
Owner Cash Withdrawal.....	\$750

Below the table, the accounting equation is displayed: $Assets = Liabilities + Equity$.

At the bottom of the interface, there is a chat box with a list of participants (Andrew and Sam) and a text input field with a 'Send' button. The chat history shows a conversation about solving a problem using the accounting equation.

On the left side, there is a vertical menu bar with various icons for formatting and editing, including text, font, and drawing tools.

Test Introduction

Get Started
Let's begin by taking a diagnostic quiz. We will use the results from your quiz to create your customized learning plan. Try your best on the quiz but don't worry if you can't answer all of the questions – the quiz is designed to identify areas where you need the most help.

Prior to taking the test, please read these instructions.

- 1. Start the test.**
To take the test, click [**Start Test**] below.
- 2. Take your test.**
Read each test question carefully. Some questions will ask you to type your answer, others will be multiple choice. Click [**Next**] at the bottom right of the test page to move to the next set of questions.
- 3. Submit your test.**
On the last test page, click [**Done**] at the bottom right of the page to submit your answers.
- 4. Any questions?**
Ask your Brainfuse tutor, call us at 1.866.BRAINFUSE (1.866.272.4638), or email info@brainfuse.com.

Creating a Thesis

[Get Live help](#)

Creating a thesis

What is a thesis?

A thesis statement explicitly articulates the purpose of your paper. It states what you believe and what you intend to prove. It may also preview the main ideas or categories of support.

The preliminary thesis

Before you begin writing, you will probably start with a topic but not a thesis. Your preliminary thesis should be born out of your knowledge, reading and research of a subject. The more you engage in your topic, the more you will develop an intelligent comment regarding its issues.

As you read and think about your topic, ask yourself questions. Look for interesting contrasts or comparisons or cause and effect relationships. Try to find patterns that emerge from the information or take note of insights you believe others could miss. What about the topic inspires or challenges you? Is there an expert opinion with which you disagree or information in the topic that goes against conventional wisdom?

The list below identifies a few common approaches for drafting a thesis:

- **Reveal a relationship:** Compare your topic with something else, or discuss your topic as it

Need help with a research paper? Simply go to **Writing** and scroll down to **Research**.
