

Women in Conservation Science Scholarship Application

Texas Parks and Wildlife Foundation

For hundreds of years, Texas' vast, rugged prairies, towering canyons, grassy banks, untamed rivers, and untouched shorelines have held a special place in the hearts and minds of its citizens. With 11 distinct ecoregions covering 268,500 square miles, Texas is blessed with amazing biodiversity, including nearly 800 species of fish, 634 species of birds, and over 4,600 species of native plants. However, Texas is experiencing immense population shifts that are creating challenges and opportunities to conserve the state's rich natural resources and cultural heritage. Today and in the years to come, it is critical to steward and conserve Texas' wild things and wild places, not only for the health of our lands, waters, and wildlife, but for the well-being and benefit of all Texans.

Texas Parks and Wildlife Foundation: A Committed Partner

Founded in 1991, Texas Parks and Wildlife Foundation is the official nonprofit partner of Texas Parks and Wildlife Department (TPWD). The mission of TPWF is to support TPWD to ensure that all Texans, today and in the future, can enjoy the wild things and wild places of Texas. TPWF secures funding for transformational projects supported by sound science with measurable results and meaningful impact that would not be possible without the support of generous funders. Since its inception, TPWF has raised more than \$215 million to advance Texas' proud outdoor traditions and conserve our state's lands, waters, and wildlife. In recent years, TPWF has funded significant projects such as restoring the iconic pool at Balmorhea State Park, repairing fish hatcheries and research vessels devastated by Hurricane Harvey, and acquiring the stunning 17,351-acre Powderhorn Ranch in Calhoun County.

The Women in Conservation Science Scholarship

The Women in Conservation Science Scholarship Fund advances conservation by encouraging and supporting female undergraduate and graduate students pursuing studies related to natural resource conservation. Thanks to the generosity of its benefactors, the Women in Conservation Science Scholarship will help ensure that women are on the forefront of fields dedicated to stewarding, conserving, and protecting the natural resources that Texans rely on and enjoy. The scholarship is open to female students who are interested in a career in the fields of range science, forestry, biology, botany, earth science, wildlife management, and other majors related to conservation science.

Scholarship Information

- Up to \$4,000 per student per academic year (\$2,000 per semester) for tuition and related expenses, paid directly to the college or university at the start of each semester
- Payment is dependent upon successful completion of the previous semester with a GPA of at least 3.0 on a 4.0 scale

Eligibility Information

- Restricted to female students pursuing a graduate or undergraduate degree in range science, forestry, biology, botany, earth science, wildlife management, or a related field, with plans to pursue a career in conservation
- Current full-time student at an accredited college or university in Texas
- For undergraduate students: must have completed a minimum of 48 semester hours of study by the application deadline of 6/14/21
- Current cumulative GPA of at least 3.0 on a 4.0 scale
- Preference will be given to students who hold part-time jobs while attending school; please submit proof of employment with your application (see below)

Required Documentation

- Completed application
- One brief letter of recommendation
- Personal statement (see guidelines below)
- Official college/university transcript (from all schools attended)
- If applicable: a brief description of current part-time employment (position, duties, employer, hours worked per week) and proof of employment (either a recent pay stub or a letter from your employer)

Personal Statement Guidelines

In 1,000 words or less, please tell us about your interest in conservation science, your career goals, and how you hope to make an impact on the conservation of the wild things and wild places of Texas.

Application

Please submit your application, personal statement, letter of recommendation, transcript(s), and proof of employment (if applicable) to info@tpwf.org by **Monday, June 14, 2021**. All materials must be sent in electronic format (PDFs) via email to be accepted. PDF scans of transcripts will be accepted. Please do not send photographs with your application packet.

Applicants will be notified by Monday, August 2, 2021, of scholarship award.
