

Clarendon College Learning Resource Center Newsletter Spring 2019

by James Gordon

ISSUE 3 – MARCH 2019

Hello fellow Bulldogs. I trust you are all having an awesome semester here at Clarendon College. I just wanted to take a few moments to fill you in on some of the exciting things going on in the LRC this year.

We currently have a pilot program with a company that makes a smart phone app students can use to send remote messages and questions to one of our math tutors. The app is called EasyMath College App and is available for download at your smart phones app store. The app is available for both iPhone and Android devices. This is a handy study tool to have especially if you are in need of a little extra help in Algebra or Business Math. See the back of this newsletter for more information.

The LRC, along with the library, sponsors several student activities each year from seminars, to movies and poetry readings. In the past, our annual Great Easter Egg Hunt has been tremendously popular; therefore, we are bringing it back once again this semester.

The Great Easter Egg Hunt will run for four days from Monday April 15th through Thursday April 18th. During those four days, plastic Easter eggs will be hidden in random places in the LRC and the library. The eggs will contain Easter candy and clues to locating special eggs that contain prize vouchers. Students who find these special eggs can turn them in to me or one of the librarians to receive Visa Gift Cards worth up to \$25.00. Special eggs will be hidden during each of the four days to allow

everyone a fair chance of finding them. Good luck and good hunting.

The LRC occasionally sponsors surprise pizza parties for students studying in the LRC and in the library in the evenings. It's getting about time for another one, so don't be surprised if you see me walk in carrying a load of pizza boxes. The more often you are here at night studying, the better your chances of participating as these parties are random and unannounced.

In conclusion, I want to remind you that we will be open extended hours during finals week to allow for extra study time. Our friendly and helpful tutors will be available. Our tutor's available hours and the subjects they tutor are posted in the LRC and on the library counter. See me if you need to set up an appointment. Have a great semester. - Mr. Gordon

Introducing EasyMath College App

- Enables you to send a math or an algebra question from your phone directly to one of our tutors.
- Tutors will receive your question on their phone and message you back during their LRC tutoring hours.

First Time Set-up Instructions for Students

1. Download and install the app from your app store. *(Make sure you select the EasyMath College app and not the Easy Math one)*
2. Open and sign-up
3. Select course and college
4. Enter your name and email address. *(You must sign-up with your bulldogs email account)*
5. Scroll through the features and select Done
6. Type a question
7. Take a picture of the problem your working on
8. Send the question and the picture
9. A tutor will get back to you as soon as possible

**Need help from a tutor while
you are off campus?
Connect with a tutor
from your phone**

Sign up for FREE with your student email

**Search “EasyMath College”
in the App Stores**

or
