

Texas Higher Education Coordinating Board
Annual Texas Success Initiative Assessment (TSIA) Summary Score Report
for 2016 Texas High School Graduates by Public School District

Texas Higher Education Coordinating Board
Austin, TX
October 2018

**Texas Higher Education Coordinating Board
Annual Texas Success Initiative Assessment (TSIA) Summary Score Report
for 2016 Texas High School Graduates by Public School District**

Introduction

This report summarizes the Texas Success Initiative Assessment (TSIA) scores of Texas public high school graduates in 2016. Report tables present TSIA average scores by public school district and by race or ethnic group within each district. This report meets the requirements of Texas Education Code (TEC), Section 51.3062(u), with the Texas Higher Education Coordinating Board (THECB) providing the TSIA data for this report on behalf of institutions of higher education statewide.

Note: The TSIA is one way of demonstrating college readiness in Texas. Other reports that consider the comprehensive list of readiness measures can be found on our [Texas Higher Education Data website](#), and policy information is available on the [Texas Success Initiative website](#).

Data Sources

| | |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Received from the College Board</i> | Texas Success Initiative Assessment (TSIA) scores of students who tested at either a Texas higher education institution or within a public school district testing site from January 2014 through October 2016 |
| <i>Received from the Texas Education Agency (TEA)</i> | TEA student records for the class of 2016 Texas public high school graduates |

Matching Methodology

In this report, the THECB used TSIA score data from January 2014 through October 2016 to provide summary data for the Class of 2016 Texas public high school graduates provided by the Texas Education Agency (TEA). Summary calculations only used the highest score achieved by the student in each content area, i.e., reading and math.

Matching TSIA scores with high school graduates occurred in two steps:

First, to incorporate TSIA data resulting from public school testing sites, the THECB received the graduation report matched with TSIA raw scores from TEA. The matching process that TEA used is described below.

TEA uses TSIA data through October 2016 to match to the 2015-16 annual graduates file in PEIMS. TSIA results from the Texas Higher Education Coordinating Board are matched to students on our annual graduates list using an algorithm that includes SSN, first name, last name, and DOB. Then, the results are attributed to the campuses at which the students are identified as annual graduates in PEIMS.

Source: Texas Education Agency, 2017 Accountability FAQ

Second, to incorporate TSIA data resulting from institutions of higher education testing sites in 2016, the THECB used a similar method to TEA and matched students using an algorithm. This approach considers the student’s name (first, middle initial, and last), their date of birth, and any available unique identifier. Because information is manually entered for these assessments, the THECB also looks for acceptable matches, as long as one piece of unique information can be verified.

Student Privacy and Data Suppression

The THECB suppresses information that could be used to identify individual students. The THECB took the following steps to protect the privacy of students within the state:

- No TSIA data were shown where the number of TSIA test takers in a district is fewer than 100. For these districts, THECB plans to provide a “small N report” every three years.
- TSIA data for any ethnic group with fewer than five test takers were suppressed.
- District summaries were calculated using only the total number of students and average of the data that are presented. Suppressed student groups were not included in these calculations.

Report Definitions

| | |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Ethnicity</i> | Ethnicity as reported by public school districts to TEA. |
| <i>Assessment Sections</i> | For each of the school districts and ethnicity indicators, data are provided for each of the following TSIA exam sections: Math Reading |
| <i>Measures</i> | For each of the assessment sections, the Coordinating Board provides the following descriptive statistics: N = Number of high school graduates who took the TSIA Average = Average TSIA section score for the high school graduates who took the TSIA and the subpopulations reported (race/ethnicity) |
